SUMMARY

Software Engineer with hands-on experience in full-stack web development using React.js, JavaScript, Node.js, Python, and SQL. Proven ability to build responsive, data-driven applications with RESTful API integration, component-based architecture, and optimized UI performance. Experienced in Agile and Scrum workflows with a strong foundation in software development, database management, and collaborative problem-solving in team environments.

SKILLS

Languages: JavaScript (ES6+), Python, SQL
Frontend: React.js, HTML5, CSS3, Responsive Design
Backend: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, MySQL, SQLite
Tools & Platforms: Git, GitHub, Postman, VS Code, Google Gemini API, Docker
Development Practices: Agile/Scrum, CRUD operations, API integration, JWT authentication, version control

EDUCATION

Master of Computer Applications (MCA) ATME College of Engineering, Mysore	02/2024 – 11/2025 GPA: 9.0/10
Bachelor of Computer Applications (BCA) Vidya Vikas First Grade College, Mysore	08/2020 – 07/2023 GPA: 7.4/10

EXPERIENCE

Front-End Web Developer Intern Akashaveda Technologies Pvt. Ltd.	01/2026 – 04/2026
---	-------------------

- Developed responsive web pages and reusable UI components using **React.js**, HTML5, CSS3, and JavaScript.
- Improved page responsiveness by **20%** through React.js component optimization and efficient rendering strategies.
- Integrated **RESTful APIs**, reducing UI load times and improving data-fetch reliability and application usability.
- Refactored component architecture and state management, reducing redundant renders and improving code maintainability.
- Collaborated in **Agile/Scrum** workflows using Git and GitHub for version control and feature delivery.

PROJECTS

Finance Business Tracker – Full-Stack Web Application (MERN Stack)

- Developed a full-stack finance tracking application to manage income, expenses, and category-based transactions across 10+ categories.
- Implemented **JWT authentication** for secure user login and role-based protected dashboard access.
- Built interactive dashboards with **bar, line, and pie charts** for real-time financial analysis and usability.
- Implemented **CRUD operations** for transaction management with real-time data updates and scalable API design.
- Designed a mobile-responsive UI with sidebar navigation across 4+ application views.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, REST APIs, JWT

ACHIEVEMENTS

- Maintained a **GPA of 9.0/10** in MCA, demonstrating strong academic performance in software engineering and computer science.
- Actively participated in **hackathons, coding challenges, and technical workshops**, strengthening problem-solving skills and technical breadth.
- Organized and led events as **Club Service Director, Rotaract Club**, demonstrating leadership and cross-functional collaboration.
